

Cámara de videovigilancia nocturna
Ethernet & Wireless
Compresión de video MPEG4
Wireless 802.11b/g (Sólo modelo OC-610W)
1 puerto RJ45

Professional video surveillance

The OC-610/OC-610W camera with Zoom 4x and an incorporated microphone is the best option to install a quality surveillance system.

Night Vision

As unique feature for this IP Camera family, OC-610 Series include 6 infrared LEDs which allow users to guarantee the security at night-time or indoor places such as warehouse with almost no light.

Thanks to the Software, it is possible to simultaneously control up to 16 surveillance cameras from the internal network or via the Internet.

The wireless connection (only OC-610W) makes it possible to mount the surveillance system without having to have a network cable installation.

Key Features

- Video/Audio surveillance camera for Home/Office security purpose.
- Support Snapshot/Video recording at IE browser directly.
- Scaling up video to SVGA resolution by software skill.
- Built - in Samba function to store image/video at local area network directly.
- MPEG4/MJPEG dual codec for streaming video.
- Support multi-streaming for VGA, QVGA, QQVGA.
